Motivation

Describe, in one page or less, why you need to take the course. Describe your research and the need to use X-ray crystallography and why taking this course will help your academic requirements and/or progress in your research. Describe your current crystallography training and experience. This information will help us fine-tune the presentations.

Enter your text here:

Instructions for submission:

Please fill this form and send it to britten@mcmaster.ca as soon as possible (by May 10, 2011).

Ask your supervisor to send a brief e-mail (to britten@mcmaster.ca) describing the importance of attending the course for you and for the research. Your supervisor must give your name in the e-mail subject. If more than one student in the research group is requesting attendance, a stronger justification must be given.

Accommodation

A block of rooms has been reserved on the university campus at an excellent rate (\$45/night): <https://www.studioshotel.ca/reservation.php>. It will be the responsibility of the participants to book and pay for accommodations. Further information is available on the [Workshop site](#).

*Participants are required to bring a laptop with MS Windows operating system (for WinGX). Internet access will be arranged.
